Subject: FW: MT Site Update Follow Up: Due COB Today Please

Deb/Suzanne

Below is the latest on status of meetings next week with the Administrator with Senator Daines on Montana SF. As I mentioned to Suzanne, in addition to updating the NPL site webpages which just got cleared through HQs according to Andrew, we are providing Kell Kelly with some additional information on Anaconda Smelter based on the MT Standard article that came out late last week and his questions (see second email). I should have a draft for your review this afternoon (due COB today).

Subject: MT Site Update Follow Up: Due COB Today Please

Hi Betsy, Sandy and Bill:

I'm following up on a very brief conversation I had with Bill earlier today re: additional work needed related to the MT NPL site status update request, which we need to complete by COB MDT today. Here's context I learned just this am:

Ax Pruitt is meeting with Sen Daines (MT) next Wed, July 13 as a follow up to the Senate Appropriations Committee EPA hearing last week.

Kell Kelly, who requested the site status updates, will meet with the Ax on Tuesday, July 12 and has requested the information by this Saturday when he returns to DC.

Silvina Fonseca, OLEM's current liaison to the Administrator's office and a permanent OSRTI employee, would like to review the info tomorrow.

Helen Duteau has called Jasmin Guerra to coordinate further updates. Per an email from Helen, Jasmin will work with Bill (and Joe presumably) on the effort.

Please let us know how we can help (other than to minimize calls/emails/etc). I apologize in advance for the quick turnaround nature of the request. Please contact any of us with questions. Thank you.
